

Facade Consultant (100 %) – D/E

We are a firm of Engineers and Specialist Facade Consultants, located in Münchenstein, close to Basel/Switzerland. We are advising and providing engineering services of metal and glass facades to Architects and Clients in Switzerland, Europe and overseas.

Job Description

We are looking for a competent and experienced person to complement our team. You will represent our company as a Facade Consultant in the English speaking market. You have a well-founded background in metal or facade engineering with specialist experience in building envelope.

Your Profile

- deep knowledge in Metal/Facade Engineering
- professional experience in facade construction
- experience in international projects in foreign markets
- organisational skills
- flexible and motivated to travel
- German as native language or good German language skills
- fluent in English (spoken and written)
- any additional language skills are a benefit
- capacity for teamwork

We offer

- interesting work in a successful team of 20 staff members
- long term employment
- career options as line Manager with executive function
